MIND CIRCUIT™

District IT Approval Request

Everything your network team needs to allow Mind Circuit for teachers and school leaders.

What Mind Circuit is

Mind Circuit is a web-based K-12 classroom tool for teachers. Teachers run short, guided classroom routines (30–90 seconds) that help a class get back to instruction after transitions and interruptions. School and district leaders use it to review implementation and monthly reports. Nothing needs to be installed: it runs in a standard web browser.

Suggested web filter category: **Education**

Addresses to allow (HTTPS, port 443)

> **Simplest option:** allow `*.mindcircuit.org`, plus the third-party services below.

Address	Used for
`mindcircuit.org` `www.mindcircuit.org`	Teacher portal
`school-admin.mindcircuit.org`	School administrator portal
`district-hub.mindcircuit.org`	District administrator portal
`webapi.mindcircuit.org`	The portals' service
`aou-dev.s3.us-east-1.amazonaws.com`	Images, audio and video

Third-party service	Used for
`accounts.google.com`	Sign in with Google (optional sign-in method)
`challenges.cloudflare.com`	Sign-up security check (stops fake sign-ups)

`web.squarecdn.com`
`square-fonts-production-f.squarecdn.com`
`pci-connect.squareup.com`
`d1g145x70srn7h.cloudfront.net`
	Secure card payments by Square. Needed only when a teacher or school buys a plan.

If your filter inspects HTTPS traffic and pages load incompletely, please exempt the addresses above from inspection.

Privacy and data

- **No student accounts.** Students never sign in, and we never ask for student names, email addresses, grades or records.
- What teachers record after a routine describes the class as a whole, never a named child.
- **What we store:** teacher and administrator accounts (name, email, school), classroom names, and class-level routine records and feedback.
- **Sign-in:** email and password, or Google (teacher and administrator accounts only).
- **Payments** are handled by Square; we never see or store card numbers.
- All traffic is encrypted (HTTPS). Data is hosted on Amazon Web Services in the United States.

Review our policies

`mindcircuit.org/legal/privacy`	Privacy policy: what we collect, why, and how to ask for deletion
`mindcircuit.org/legal/security`	Security: encryption, hosting, who can see what, what we never collect
`mindcircuit.org/legal/accessibility`	Accessibility: working to WCAG 2.1 Level AA; how to report a barrier
`mindcircuit.org/legal/terms`	Terms of service
